

## Vision

To preserve the special character, setting and landscape of Norton St Philip whilst delivering the framework for a dynamic, sustainable Parish which will meet the needs of current and future residents.

## Objectives

- 1) To set in place housing development policies which will allow growth and contribute to the sustainability of the Parish and which are sensitive to and reflect local identified need and community wishes
- 2) To encourage and support home working, employment and tourism in the Parish
- 3) To ensure that any development is well designed and environmentally sustainable and that it recognises and contributes to the historic, rural character and setting
- 4) To protect and enhance the important green spaces, habitats, views and natural environment of the Parish and to maintain and enhance the important green corridors within the settlements.
- 5) To protect the key village amenities
- 6) To ensure that any development does not exacerbate the current traffic and parking problems and contributes to a less car dependant community
- 7) That Plan policies will be supportive of residents who wish or need to move house whilst remaining in the Parish
